1 x Lower cross bar

C

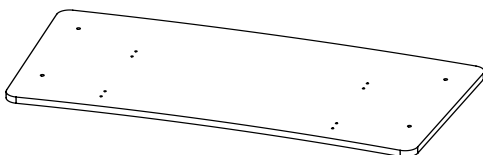

1 x Upper cross bar

D

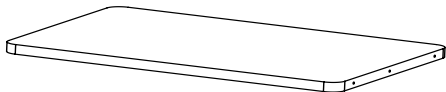

1 x Top desk plate

E

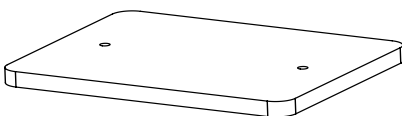

1 x Middle desk plate

F

1 x Movable tray plate

G

1x Lower plate

You will receive two boxes.

Contents of box 1

Contents of box 2

1) Assemble (Z12) feet on (A) leg bracket

Repeat this step for both (A) leg brackets.

Position (A) leg brackets vertically for easier assembly on the next step.

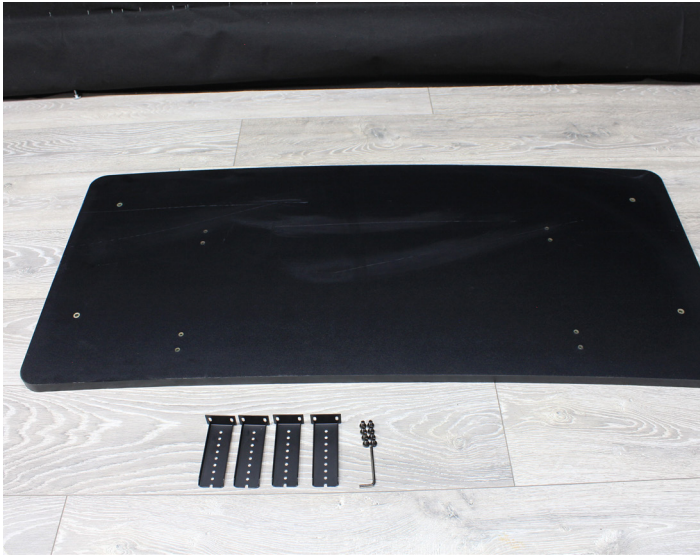

2) Assemble (C) upper cross bar on (A) leg bracket with (Z7).

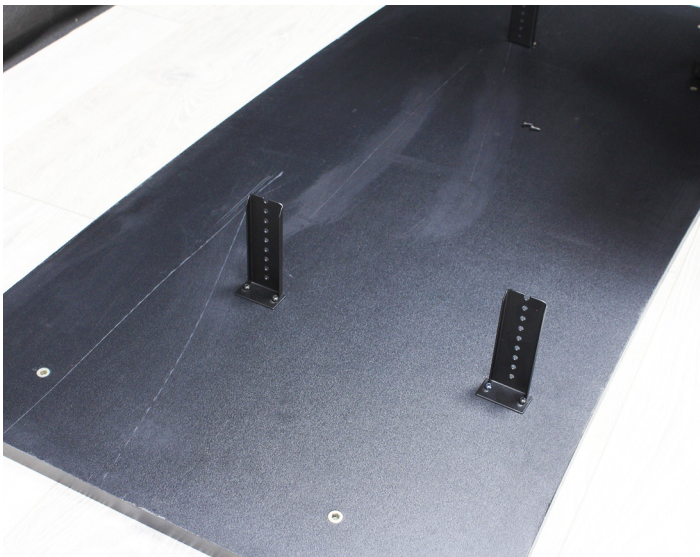

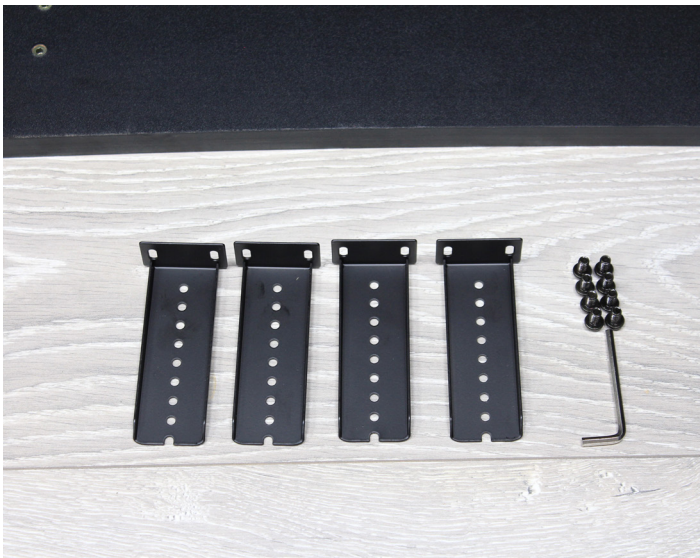

Assemble (B) lower cross bar on (A) leg bracket with (Z6), (Z9) and (Z11), using the the Hex Keys (Z16) and (Z17).

3) Assemble (Z13) guide mounting racks on (E) middle desk plate with (Z2) using a Phillips-Head screwdriver.

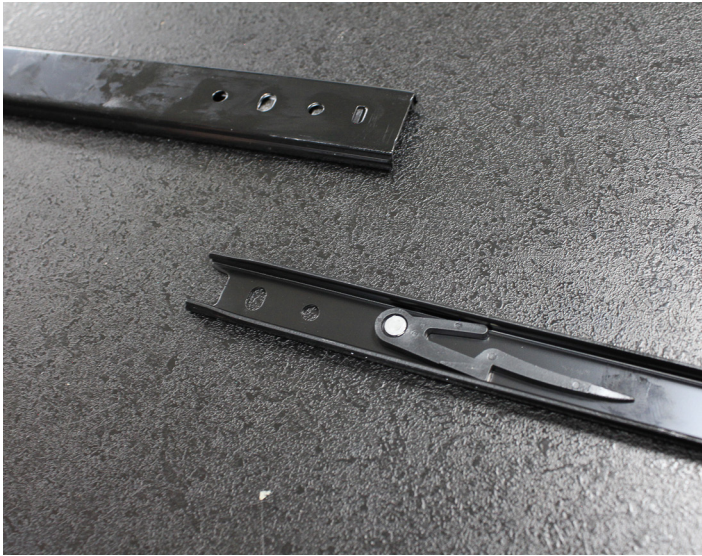

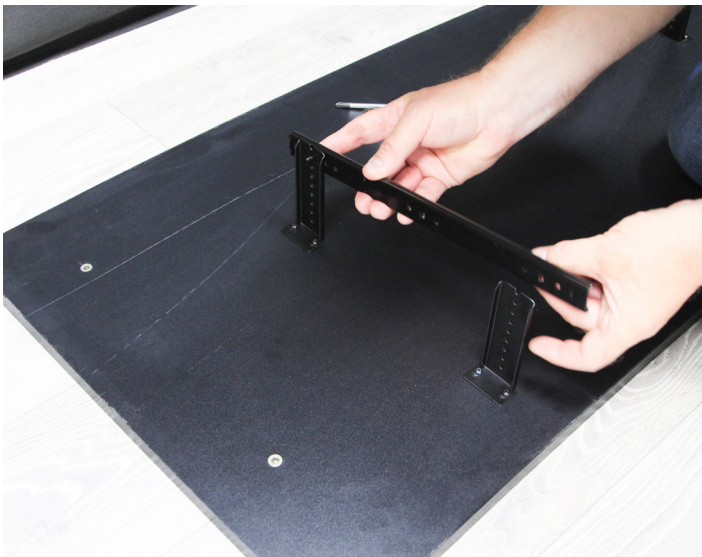

4) Disassemble double-folded rail (Z15) by extending the rail, lifting the latch and separating the two sections of the rail.

5) Assemble the outer rail on (Z13) guide mounting rack with (Z2), (Z8) and (Z10) using a Phillips-head screwdriver and an adjustable spanner to hold (Z10) in place.

6) Assemble the inner rail on (F) movable tray plate with (Z1) and (Z3).

Insert (Z1) into the holes as shown.

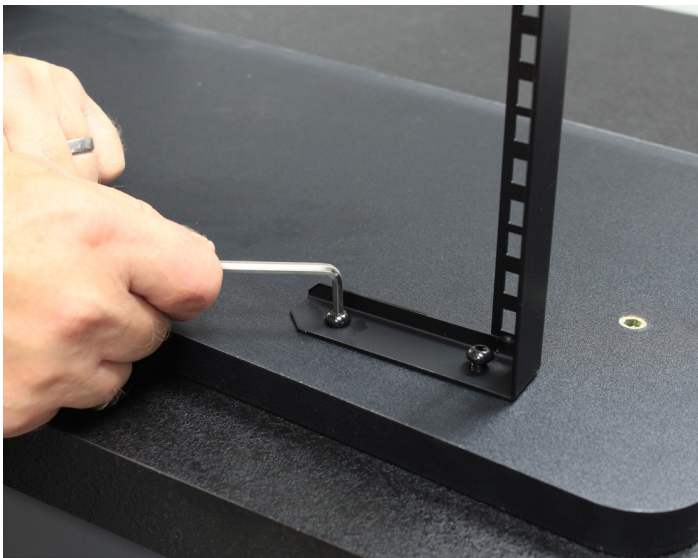

Position the inner rail.

Insert and tighten (Z13) using a Phillips-head screw driver holding (Z1) in place with a flat-head screwdriver.

7) Assemble inner rail on (F) movable tray plate with (Z1 and (Z3), using the Hex-Key (Z16)

8) Assemble (Z14) cartridge mounting stripe on (C) upper cross bar with (Z5 and (Z11).

Assemble (D) top desk plate on (A) leg bracket with (Z6).

9) Fix G Lower Plate on B lower cross bar with (Z5).

10) Fix (E) middle desk plate on (A) leg bracket with (Z6).

11) Assemble (F) movable tray plate into (Z15) outer rail. Then your assembly of the Troilus Studio Workstation is complete.
