

GX4816

GX I/O EXPANDER

The GX4816 provides 48 microphone preamps and 16 line outputs in a rackmountable stagebox form factor. The GX4816 can be used on a SQ/Avantis/AHM Slink port, or on dLive with a gigaACE card (V1.86+).

The GX4816 offers 48 acclaimed Allen & Heath preamps and 16 XLR outputs, complete with 96kHz converters for best-in-class sound quality. 2 DX expansion ports allow for up to 4 DX I/O expanders. DX port 2 can be utilized for the ME series (48kHz) personal monitoring series when connected to a SQ or Avantis mixer. The GX connection can be run over an L2 VLAN. A unique auto firmware matching feature keeps the GX4816 in sync with the rest of the dLive, Avantis, AHM or SQ system.

GX4816 is compatible with dlive (V1.86+), Avantis, AHM and SQ series.

Key Features

- 48 High end, low noise preamps
- Independent 48v indicator
- 16 Line outputs
- 2 additional DX ports
- DX 2 is ME compatible on SQ/Avantis systems

Benefits

- Rack mount 5U
- SQ /dLive compatible
- L2 compatible
- Auto Firmware matching
- Reversible rack ears
